ELEMENTARY AND HIGH SCHOOLS

(By Counties)

The list of elementary and high schools is set up according to the organization of the various counties. Counties are divided into their districts (or areas, if the county is one district) and the schools in that district or area are listed alphabetically. District or area superintendents are given at the beginning of each district or area. If the county has one district and a district superintendent or director of county schools is employed, this person's name and address can be found at the beginning of the information on that particular county.

The list contains all schools in South Carolina except one and two teacher Negro schools.
